ELSEVIER

Volume 500, Numbers 1–2, 20 September 1995

Journal of Organometallic Chemistry

Contents

Introduction vii

Publisher's Note ix

Invited reviews

Versatile α-pinene-based borane reagents for asymmetric syntheses
H.C. Brown and P.V. Ramachandran (West Lafayette, IN, USA) 1

Reactivity of the metal–silicon bond in organometallic chemistry
P. Braunstein (Strasbourg, France) and M. Knorr (Saarbrücken, Germany) 21

Dendrizymes: Expanded ligands for enantioselective catalysis
H. Brunner (Regensburg, Germany) 39

Aromatic hydrocarbons, carbocyclic ligands spanning several oxidation states in both Main Group and transition elements. Recent advances with early transition d elements
F. Calderazzo and G. Pampaloni (Pisa, Italy) 47

Acyl complexes of molybdenum: structural and reactivity studies
L. Contreras, A. Pizzano, L. Sánchez and E. Carmona (Sevilla, Spain) 61

Transition metal-catalysed organic reactions promoted by chelating or metallacycle-forming substrates
M. Catellani, G.P. Chiusoli and M. Costa (Parma, Italy) 69

New developments in the chemistry of organoaluminum and organogallium hydrides
A.H. Cowley, F.P. Gabbaï, H.S. Isom and A. Decken (Austin, TX, USA) 81

Synthesis, structure and reactions of organometallic compounds of Groups 1–3 containing bulky silicon-substituted alkyl groups
C. Eaborn, K. Izod and J.D. Smith (Brighton, UK) 89

Forty years of *Umpolung* in organometallic chemistry: from carbanionic nucleophiles to metallic electrophiles
J.J. Eisch (Binghamton, NY, USA) 101

Dinitrogen fixation and activation after 30 years: a puzzle still unsolved
S. Gambarotta (Ottawa, Canada) 117

A new approach to the formal classification of covalent compounds of the elements
M.L.H. Green (Oxford, UK) 127

Essays on organometallic chemistry, VII. Laboratory curiosities of yesterday, catalysts of tomorrow: organometallic oxides
W.A. Herrmann (Garching b. München, Germany) 149

Cyclopentadienyl compounds with nitrogen donors in the side-chain
P. Jutzi and U. Siemeling (Bielefeld, Germany) 175

Thirty years of organometallic aryldiazenido arylazo derivatives
R.B. King (Athens, GA, USA) 187

Some aspects of organosilicon and ferrocene chemistry
M. Kumada (Kyoto, Japan) 195

Recent studies on metal and metalloid bis(trimethylsilyl)methyls and the transformation of the bis(trimethylsilyl)methyl into the azaallyl and β-diketinimato ligands
M.F. Lappert and D.-S. Liu (Brighton, UK) 203

The organometallic chemistry of nitrogenases
G.J. Leigh and C.N. McMahon (Brighton, UK) 219

Reflections on osmium and ruthenium carbonyl compounds
J. Lewis and P.R. Raithby (Cambridge, UK) 227

The lively chemistry of the di-μ-methylene-bis(pentamethylcyclopentadienyl-rhodium) complexes, analogues of surface reactions in heterogeneous catalysis
P.M. Maitlis (Sheffield, UK) 239

Complexes of gold(I) with polyaromatic phosphine ligands
D.M.P. Mingos and T.E. Müller (London, UK) 251

Recent progress in the chemistry of 1,3-diene complexes of niobium and tantalum
A. Nakamura (Okezaki, Japan) and K. Mashima (Osaka, Japan) 261

Group 13 organometallic chalcogen derivatives: their structures and behavior in solution
J.P. Oliver (Detroit, MI, USA) 269

Hydrogen elimination in cyclopentadienylnickel compounds as a route to organonickel and organic compounds
S. Pasynkiewicz (Warsaw, Poland) 283

Main Group and Group 11, 12, 2-pyridyl-(trimethylsilyl)methyl and -bis(trimethylsilyl)-methyl chemistry
T.R. Van den Ancker and C.L. Raston (Nathan, Qld, Australia) 289

Optically active organometallic compounds (a personal account from the inside)
V.I. Sokolov (Moscow, Russia) 299

Non-spectator behavior of carborane ligands in icosahedral metallacarboranes
P.A. Jelliss and F.G.A. Stone (Waco, TX, USA) 307
From ephemers to monomers, oligomers and polymers. New methods for the generation and transformation of silanones
M.G. Voronkov and S.V. Basenko (Irkutsk, Russia) 325
Success and serendipity during studies aimed at preparing carbenerhodium(I) complexes
H. Werner (Würzburg, Germany) 331
Comparison of the reactivities of neutral and cationic transition metal alkyls and hydrides
A. Yamamoto (Tokyo, Japan) 337
Some organometallic chemistry of ruthenium(II)
Y. Wakatsuki (Saitama, Japan) and H. Yamazaki (Tokyo, Japan) 349
